【Theme/テーマ】

Select TWO published academic sources from books and/or journal articles, and discuss their significance in relation to your research topic. However, depending on the research topic, instead of published academic sources, you can rather choose to describe concrete examples which provide good support for your research topic. In that case, discuss the significance of these examples in relation to your research topic. The examples can include statistical evidence, the descriptions of specific cases, situations and events, among others.

あなたが研究したいと思うテーマや課題において、重要だと考えられる書籍や論文などを二点挙げて、それらの意義・重要性を論じてください。ただし、あなたの研究テーマや課題によっては、書籍や論文の代わりに、統計資料や事例、具体的な事象などを挙げて論じてもかまいません。
