

**Outline of Proposal for SDGs Online Cross-Registration:
Online Exchange Program (OEP) focusing on SDGs**

General Information		The National University of Malaysia (UKM)				
General Information	Name of University/ Institution	The National University of Malaysia (UKM)				
	Brief Introduction of the University/Institution	<p>Universiti Kebangsaan Malaysia (UKM), also known as The National University of Malaysia was established on May 18, 1970, and it is one of Malaysia's public research universities. With the research university status accorded in 2007, UKM underlines five research clusters which include sustainable resources, environment and smart living, digital and frontier technology, health and advanced medicine, social and economic transformation, as well as heritage and civic society. UKM has eight research facilities such as Molecular Structure Characterization Laboratory, Samsung SONO School and UMBI-ANGKASA Microgravity Laboratory alongside five living labs which are located across Peninsular Malaysia that are particularly dedicated towards scientific and sociological research in environmental and ecological sustainability in Malaysia. These living labs aim to retain and conserve the tropical heritage through sustainable development as well as developing natural resources for the well-being of the community. UKM is indeed committed to carry out world-changing research works and contribute leading-edge inventions which improve the lives of communities globally.</p> <p>UKM's remarkable accomplishments in research development have placed it among the elite top 1% university in the QS World University Rankings. To date, UKM is now ranked #129 in the recent QS Global World Rankings 2023.</p> <p>As a comprehensive university, UKM consists of 15 well-established faculties and 12 research-based institutes offering a wide variety of programs. Among the faculties are Engineering and Built Environment, Science and Technology, Economics and Management, Medicine, Education, Graduate School of Business, Fuel Cell, Environment and Development, Microengineering and Nanoelectronics and Climate Change. In line with its tagline "Inspiring Futures, Nurturing Possibilities", the University successfully attracts international students by offering 49 international programs. Along with it, UKM has actively organized several popular and exciting international student exchange programs and summer mobility programs for the local and international students to further promote Malaysian hospitality and culture.</p> <p>Internationalization engagement has become one of the hallmarks of the university in which global engagement is a two-way street instead of a one-way route. UKM today has established various network engagement and partnerships with international universities and associations such as ASEAN Universities Network (AUN), ASEAN-European Universities Network (ASEA UNINET), Association of Universities of Asia and the Pacific (AUAP), University Mobility in Asia and the Pacific and other associations across the globe. With its reputations and accomplishments, UKM is indeed a global university that values education and culture to be preserved for future generations. UKM via our International Relations Centre (UKM Global) is amenable to discussing reciprocal arrangements for student exchange and mobility with international partners.</p>
