

For Prospective Students Re-Enrolling in Fall (September) 2026

Procedures Related to Status of Residence for Entering Toyo University (Information for Non-Japanese Students)

I. Common Points

(1) Status of Residence

Non-Japanese students (individuals who hold nationalities other than Japanese) re-entering Toyo University are required to have a student visa or medium- or long-term status of residence as of September 16, 2026. It is not possible to enter the University with a short-term status of residence.

(2) Student Status of Residence

Non-Japanese students who have been admitted to the University can apply for a student status of residence.

Undergraduate students		- Students enrolling in the Evening Course cannot obtain the student status of residence.
Graduate students	Fall (September) 2026 enrollment	-Students enrolling in the Training Course for Registered Small and Medium Enterprise Consultant within the Graduate School of Business Administration cannot obtain the student status of residence.

(3) Being Eligible for Aid Programs for International Students

Aid programs such as tuition reduction and scholarships available to international students are applicable to those with a student status of residence. While it is possible to enroll in and attend the University with a status of residence other than student that allows for long-term stays in Japan, in such cases, they will not be eligible to apply for the aid programs such as tuition reduction and scholarships. If the student wishes to be eligible for programs for international students, please apply for a change of status of residence.

(4) Points to Note

Regarding the specified procedures for residence status applications, re-applications, appeal for cancellation, etc., the University shall not be responsible for any disadvantages such as missing classes etc.

(5) Others

Information required before entry into the country will be provided on the following website:

<https://www.toyo.ac.jp/academics/international-exchange/enroll/prearrival/>

II. For Those who Possess a Valid Status of Residence (Current Residents in Japan)

Those who are already in possession of the "student" status of residence should apply for renewal of their current status of residence as is required. Check the guide for the admissions procedure for more information. However, if any of the following applies to the applicant, he/she may be required to leave Japan once and follow the same procedures outlined in **III. For Applicants Without a Valid Residence Status**. In such cases, the University will not apply for renewal of his/her status of residence as student.

- 1) The applicant obtained student status of residence at the educational institution he/she attended prior to enrolling at the University, and there is a gap of more than 3 months between the completion (graduation) of the course of study at the previous educational institution and his/her enrollment at the university.
- 2) The applicant obtained student status of residence at the educational institution that he/she attended prior to enrolling at the University, and the University has deemed it inappropriate to apply for permission to extend his/her period of stay because he/she left (or plans to leave) the previous (or currently enrolled) educational institution without completing (graduating from) the course of study there, regardless of the timing.

*It should be noted that, depending on the circumstances, their Certificate of Eligibility for Resident Status may not be issued in time for enrollment on September 16, 2026. However, the University will not be held responsible for any disadvantages resulting from missed classes, etc., that result in such cases.

*Applicants who possess any short-term residence status are not allowed to enroll at the University. It is mandatory to acquire the student status of residence before matriculation, so please follow the procedures outlined in **III. For Applicants Without a Valid Residence Status**.

* To demonstrate that you have sufficient financial capacity to cover tuition fees and living expenses in Japan, you must submit the documents certifying financial capacity specified in **"IV. Documents Required for Applicants of Foreign Nationality Who Wish to Enroll with 'Student' Status of Residence"** (excluding applicants who used the online entrance examination). Applicants who used the online entrance examination have already submitted these documents and do not need to submit them again.

*An applicant's academic record and attendance status at educational institutions that he/she previously attended (including attendance rates at Japanese language schools, academic performance at universities or vocational schools, etc.) may affect their application for an extension of period of stay. In particular, if the attendance rate at a Japanese language school or similar institution is below 80%, the application is highly likely to be denied by the Immigration Services Agency of Japan. In such cases, Toyo University may decline to support the application for the extension.

(1) Revocation of Re-Enrollment Permission

If as of September 16, 2026, the applicant has not acquired a student or medium- to long-term status of residence (excluding those under the application for extension of stay or change of status of residence), his/her re-admission to the University will be revoked effective on September 15, 2026. In this case, upon completion of the required procedures, the paid fees excluding the admission fee will be refunded. However, the period for the application for extension of stay or change of status of residence includes the time for reapplication or appeal for cancellation.

(2) Expulsion

If the applicant is under the application for extension of stay or change of status of residence as of September 16, 2026, and the permission for extension of stay or change of status of residence cannot be confirmed by November 15, 2026, he/she will be expelled from the University as of the date specified by the University. Therefore, please proceed with the necessary procedures promptly. In case of expulsion, upon completion of the required procedures, the paid fees excluding the admission fee will be refunded. Please note that the period for the application for extension of stay change of status of residence includes the time for reapplication or appeal for cancellation.

(3) Renewal of Residence Period and Change of Residence Status

- 1) If an extension of your student status of residence is required before re-enrolling, please do so at your current educational institution.
- 2) If you wish to change your visa status to "Student" before re-enrolling, or if you wish to withdraw from your current educational institution, please use the following inquiry form.

IV. Documents Required for Applicants of Foreign Nationality Who Wish to Enroll with "Student" Status of Residence

Information : <https://www.toyo.ac.jp/academics/international-exchange/enroll/prearrival/status-of-residence-admission/>

To ensure the appropriate admission of international students, Toyo University verifies applicants' ability to cover all expenses during their stay in Japan (tuition fees and living expenses) and their attendance rate at Japanese language schools, based on the regulations of the Immigration Services Agency of Japan and guidance from the Ministry of Education, Culture, Sports, Science and Technology (MEXT).

Applicants of foreign nationality who wish to obtain the status of residence "Student" must submit the following documents within the designated submission period: 1. Documents Certifying Financial Capacity, and 2. Certificate of Attendance from a Japanese Language School (if applicable). If false information or falsification is found in any submitted document, eligibility for enrollment may be revoked even after admission has been granted.
