Message from the President

We have been committed to implementing the Toyo Global Leader (TGL) program as part of the Toyo Global Diamonds (TGD) initiative to promote internationalization and develop global human resources. As a result, a large number of students have been certified as global leaders and are active in the international community after graduation. In addition, the number of international students has increased by approximately five times compared to about 10 years ago, and the number of overseas partner universities has exceeded 350.

Our university has been adopted by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) for its Program for Enhancing Employment of International Students and Inter-University Exchange Project and plays a pioneering role in business Japanese language education.

As a university, we will continue to focus on enhancing international education in order to develop human resources that can contribute to solving problems in an increasingly complex global society.

Etsuko Yaguchi
President, Toyo University

Founding Spirits and Principles

The Founding Spirits of Toyo University

1. The Basis of All Learning Lies in Philosophy
2. Independence and Self-Initiative
3. Integrating Knowledge and Virtue

Toyo University's Educational Principles

1. Develop your own philosophy

Instilling individuals with the ability to learn and understand diverse values and develop their own philosophy.

2. Explore the depth of essence more deeply

Educating individuals who can think logically and systematically about matters of great depth without bias or prejudice.

3. Take the initiative in tackling social challenges

Raising individuals who can think independently as they tackle social challenges and work to build better relationships.

History and Founder, Enryo Inoue

Founder of Toyo University, Enryo Inoue, Who Showed His Great Wisdom in Diverse Fields

The history of Toyo University began in 1887 with the establishment of *Shiritsu Tetsugakukan* (Private Academy of Philosophy) by philosopher Dr. Enryo Inoue. In the early years of Japan's modernization, Enryo brought forth the idea of "philosophy as the basis of thought for Japanese people living in the new era" and showed the importance of "carrying out philosophy." He stated: "Philosophy is the study that determines the principles behind all phenomena. Politics and law, needless to say, but even fields as distant as natural science and art should be founded on philosophy." Wishing to "benefit those who are not financially well-off and those who do not have the luxury of time," Enryo sought to open the doors of *Tetsugakukan* to as many people as possible by lowering the school's tuition. He was among the first to establish a forerunner to today's system of distance learning by compiling lectures and distributing them to students who would otherwise not have access to the educational offerings of the school. The spirit of Enryo lives on through the evening courses of today. Seeking to provide learning opportunities to

those unable to attend regular courses, Enryo went on lecture tours all over Japan, an activity that became his lifework. He gave as many as 5,291 lectures in 60 cities and 2,198 towns and villages over a period of 27 years. Moreover, with the ambition to transform "Japan as a nation of the Orient" into "Japan as a world nation," Enryo traveled around the world three times to watch and learn from other countries during the Meiji era. This reflects his passion to forge the way for Japan to enter a new age of education.

Introduction Video

Toyo University Introduction Video:

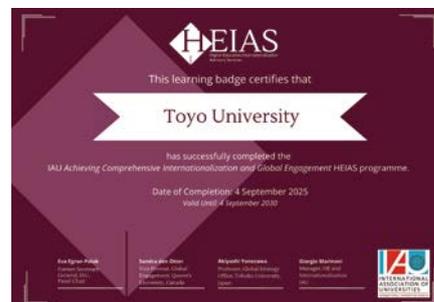

Toyo U x To You

<https://youtu.be/7EWjMnB28ks>

Toyo University's Internationalization

Toyo University's internationalization initiatives have been advanced under the Toyo Global Diamonds (TGD) initiative, which was selected for MEXT's Top Global University Project. Through this framework, the University has promoted the globalization of its education, research, and administrative systems, achieving internationally recognized outcomes such as expanding partnerships with overseas universities and obtaining international accreditation. Emphasizing students' global experience, the University offers a wide range of opportunities, including exchange programs with 31 countries and regions as well as 176 partner institutions, short-term study programs, and online international programs. These efforts have also led to the University receiving the learning badge for "Achieving Comprehensive Internationalization and Global Engagement" through the Higher Education Internationalization Advisory Services (HEIAS) of the International Association of Universities (IAU) in 2025.

Numerical Achievements Since Selection for Top Global University Project (AY2013-AY2024)

Number of Japanese students with overseas study experience

Number of international students

Number of exchange students based on an inter-university exchange agreement (number of Japanese students)

Number of overseas student exchange agreements

Number of courses that allow students to graduate only by learning in a foreign language

Status of translation of the syllabus into English

Number of international students residing in a student dormitory where both Japanese and international students live

Number of students accepted through an international transfer system

*Peak values from 2013 onward are shown.

Initiatives for Developing Highly Proficient Japanese and Multicultural Coexistence Professionals (for students from partner universities)

Toyo University implemented a five-year program starting in AY2022, with support from MEXT's Inter-University Exchange Project. The program targeted students from its partner universities abroad, aiming to foster individuals who possess advanced Japanese language proficiency and cross-cultural understanding and who can serve as a bridge between Japan and the world in the future, particularly those capable of playing an active role in Japanese companies and Japan-affiliated enterprises.

The initiatives cultivated through this five-year program will continue to be utilized in our ongoing acceptance of exchange students.

(1) Intensive Study of Business Japanese

Students who are of JLPT N2 level or higher are eligible to enroll in a variety of programs, both curricular and extracurricular, designed to help them acquire business Japanese proficiency and learn practical business etiquette.

(2) Internship

One-year exchange students may participate in the internship program if they meet the requirements of the host companies.

(3) Initiatives to Deepen Cross-Cultural Understanding

We offer various activities to provide rich opportunities for international exchange, including online programs such as the "Toyo University Global Dialogue Series" and "International Students Meeting." Online activities are flexible to meet the needs of students who are unable to study abroad.

<https://www.toyo.ac.jp/contents/international-exchange/toyo-iuep/>

Program for Enhancing Employment of International Students

Toyo University was selected for the Program for Enhancing Employment of International Students commissioned by MEXT in AY2023. The three pillars of the program are business Japanese language education, internships, and career education, and we will support international students in finding employment in Japan. Additionally, Toyo University's initiative plan was certified under MEXT's Program for Enhancing Employment of International Students in October 2025.

For business Japanese learning, Toyo University!

Acquire the business Japanese skills you need to find a job in Japan and play an active role in the future

Toyo University offers various levels of Japanese language courses for different purposes, including business Japanese. Students can take courses according to their learning style, including live or on-demand courses. We also provide subsidies for the Japanese-Language Proficiency Test (JLPT) and Business Japanese Proficiency Test (BJT) to support international students who wish to find a job in Japan.

For internships in Japan, Toyo University!!

Expanding internship programs for international students in the Tokyo metropolitan area and regional cities

Through on-site internships, students can learn about corporate culture, daily life, and industries and deepen their understanding of each region through pre-post studies. By learning about the characteristics of not only Tokyo but also various regions, students can expand their job opportunities in Japan. Private organizations from Tohoku to Kyushu, financial institutions, and companies promoting digital and green transformations near the campus participate in the programs.

For job hunting in Japan, Toyo University!!!

Providing guidance for career development starting in the first year and establishing a comprehensive support system

We offer career support courses to help students consider employment in Japan and regularly hold company information sessions and job search seminars for international students. In addition, we aim to develop human resources and entrepreneurs with a focus on digital transformation through interdisciplinary workshops open to students regardless of their major or campus.

Hosui-no-Mori

The main spot that could be called the face of Hakusan Campus.

University Library

The library houses nearly one and a half million volumes and offers plenty of comfortable study areas.

Main Campus Provides a Cosmopolitan Hub for Arts and Humanities

Toyo University's Hakusan Campus is located in the heart of Tokyo, and we are just a few subway stops away from many of its most iconic areas such as Shibuya, Akihabara, Ikebukuro, and Shinjuku. Yet Hakusan Campus is characterized by a calm atmosphere conducive to learning. Sleek, modern architecture is offset by lush trees and open spaces. Just off campus, temples and shrines, hundreds of years old, offer opportunities for quiet reflection. Like the University itself, Hakusan Campus is modern and cosmopolitan with a quiet side just around every corner. Student life at the University is as vibrant and eclectic as the city where it is located. Opportunities abound for clubs, circles, internships, volunteer programs, and other extracurricular activities.

Building 2

It is the symbol of Hakusan Campus. It serves as a center for education and research, including classrooms, laboratories, the library, and Sky Hall.

Building 6

This is one of the main academic buildings on Hakusan Campus.

AKABANEDAI CAMPUS

INIAD HUB-1

1-7-11 Akabanedai, Kita-ku, Tokyo

Faculties

Information Networking for Innovation and Design (INIAD)

Graduate Schools

Information Networking for Innovation and Design (INIAD)

Equipped with State-of-the-Art Information and Communication Technology

Akabanedai Campus INIAD HUB-1 opened in 2017 and is the main campus for the Faculty and Graduate School of Information Networking for Innovation and Design. The impressive building (INIAD HUB-1) produced by Dr. Ken Sakamura is equipped with 5,000 state-of-the-art IoT devices. One unique feature of Akabanedai Campus is its “paperless environment.” Digital signage is placed everywhere on campus instead of paper notice boards, and a bookless library (the Media Center) provides an environment where students can view extensive digital archives on the tablets or their own laptop computers.

1 2 INIAD HUB-1

The exterior of INIAD HUB-1, designed by Kengo Kuma.

3 Media Center

Accessible anywhere on campus via free, secure Wi-Fi, e-books make up most of the library's extensive collection.

AKABANEDAI CAMPUS

WELLB HUB-2

1-7-11 Akabanedai, Kita-ku, Tokyo

Environmental Innovation*

*Scheduled to open in April 2027.

Modern Campus Situated Within Lush Green Surroundings

Toyo University's Kawagoe Campus opened when the University established its first science faculty. The campus is located in a serene forest close to Kawagoe, a picturesque historic town in Saitama Prefecture. Kawagoe retains the atmosphere of Edo (the old name of Tokyo) and is nicknamed "Ko-Edo" or "Little Edo." The University runs a field research program based in Ko-Edo in collaboration with the local community and offers open college courses contributing to the community's lifelong learning programs. The entire campus is involved in environmental protection activities, and many local residents enjoy taking walks within the lush green campus.

1 Audiovisual Design Laboratory

Students learn about network architecture and hardware environments while creating new content which can be presented via the theater system.

2 Komorebi Path

Komorebi ("leafy sunshine") Path is a sun-dappled promenade that connects Kawagoe's west gate with the main campus building. Komorebi Forest is where Toyo University has taken over the task of continuing to protect the precious thicket cherished by local residents. Kawagoe Campus will transform into a Smart Green Campus in 2027 with the establishment of new faculties, restructuring of courses, and construction of a new school building.

3 4 New Faculty Building

Inspired by principles emphasizing harmony with nature, the campus's new building utilizes cutting-edge, green technologies in its design. By harnessing resources like solar power and groundwater to generate energy and conserving it using sensors and other technologies, it meets the specifications for a net zero energy building, aiming to consume practically zero energy. Experiential and practical, it provides a learning environment in tune with the real world.

Facilities

Accommodations for International Students and Visiting Faculty

Toyo University has two international dormitories in Tokyo, which provide great access to campuses and major tourist spots such as Asakusa and Shinjuku. Residents will be invited to a variety of international events, seminars, and other learning

opportunities. The dormitories are equipped with basic daily items, including a bed, desk, and refrigerator, and Resident Assistants provide support for safe and comfortable residence life.

Cafeterias

All of the Toyo University campuses have brilliant cafeterias spread across the campus buildings. The cafeteria located on the basement floor of Building 6 of Hakusan Campus is particularly noteworthy, having received awards for its excellence. With a seating capacity of approximately 1,300 students, it is a popular spot on campus. One of its main attractions is the presence of numerous specialty restaurants offering a diverse range of delicious cuisines, including Italian, Indian, Korean, Turkish (offering a halal food menu), and, of course, Japanese dishes. These dishes are available at reasonable prices, typically ranging from around 580 to 680 JPY. Cafeterias take into consideration the dietary needs of their diverse student body, providing menus that cater to those with food allergies and halal requirements. On Hakusan Campus, one can find other popular restaurants in Japan, such as Subway and Marugame Udon.

Programs for International Students

Degree Programs

Toyo University is home to 14 faculties comprising 51 departments and courses and 15 graduate schools comprising 36 courses. Now about 1,600 international degree-seeking students learn at Toyo University.

In addition to courses taught in Japanese, students can take

courses in other languages. In particular, the number of classes taught in English has been increasing year by year and there are 1,551 courses (487 of which are for graduate students) offered in English (in AY2025).

Study Abroad Programs

When international students study at Toyo University, they do not just make friends with students from Japan. They make friends with students from around the world. Each year, the size and diversity of Toyo University's international study abroad body increases, thanks in part to the high student satisfaction and overwhelming positive recommendations from our alumni. International students will have opportunities to participate in various cultural activities and events (see page 17). By studying abroad at the University, they can join a unique global network of bright and talented international students.

Toyo Short Programs: Summer & Winter

Toyo Short Programs offer Japanese language classes for beginners covering listening, speaking, reading, and writing components, as well as interactive Japanese classes with Toyo students. The programs provide participants with various opportunities to enjoy Japanese culture through site visits and

Customized Programs

On top of the Toyo Short Programs, we also arrange a bespoke program, in-person or online, featuring content in both English and Japanese. Program content can be arranged flexibly so that it can meet client's needs and interests (see below for an example itinerary). Toyo students will also participate in

Example schedule

Day 1	Orientation, campus tour, and welcome party
Day 2	Classes (AM & PM)
Day 3	Classes (AM) and cultural activities (PM)
Day 4	Classes (AM & PM)
Day 5	Field trip
Day 6	Homestay outside Tokyo
Day 7	Homestay outside Tokyo

Example:

- | Classes | Japanese culture, Japanese language, etc.
- | Activities | Japanese calligraphy, tea ceremony, papermaking, etc.
- | Field Trips | Asakusa, Akihabara, Tokyo Skytree, Kamakura, Enoshima, etc.
- | Others | Company visits, homestay outside Tokyo, etc.

activities on campus. In 2024 and 2025, the summer program included a visit to Mt. Fuji, and the winter program offered cultural and hands-on experiences in Chichibu and other regional areas of Japan. We deliver these two-week programs twice a year, in August and January.

Japanese language classes as assistants and join some fieldwork activities. The program fee varies depending on the number of participants, length of the program, accommodations, and activities involved. Please contact us directly at mltsp@toyo.jp for further information.

Day 8	Free day
Day 9	Classes (AM) and cultural activities (PM)
Day 10	Field trip
Day 11	Classes (AM) and cultural activities (PM)
Day 12	Classes (AM & PM)
Day 13	Final presentation and farewell party
Day 14	Departure from Tokyo

NEST (*Nihongo* for Exchange & International Students at Toyo)

NEST is based on the Common European Framework of Reference for Languages (CEFR) and has classes ranging from Beginner Level/A1 to Intermediate Level/B1. We have established “theory” and “practice” classes to steadily improve Japanese language skills. We also offer skill-based courses as well as interactive classes that enable students to learn about Japanese culture and society. These courses are designed to suit the diverse objectives and needs of international students, and classes are organized each semester according to students’ Japanese language proficiency levels.

Example time table

Period	Time	Mon.	Tue.	Wed.	Thu.
1	9:00 AM ∨ 10:30 AM	Integrated Japanese (Theory)	Integrated Japanese (Practice)	Integrated Japanese (Theory)	Integrated Japanese (Practice)
2	10:40 AM ∨ 12:10 PM	Japanese Writing	Japanese Speaking	Japanese Listening	Japanese Reading
Lunch hour					
3	1:00 PM ∨ 2:30 PM	Japanese Culture and Society or Introduction to Japanology			

Integrated Japanese Theory/Practice

Integrated Japanese is aimed at zero-beginner to intermediate Japanese learners. In the Theory class, students will deepen their understanding of characters, vocabulary, and grammar. In the Practice class, they will develop the ability to use these skills. The purpose is to cultivate a foundation that enables international students to develop the Japanese language skills needed to study at our university and live in Japan, and to deepen their learning in stages. Integrated Japanese Theory/Practice courses will be divided into the following four levels depending on the result of the placement test.

Beginner Level	For students with zero background in Japanese language. Approx. A1-1 (CEFR)
Elementary Level	For students who are able to use and understand minimal Japanese language. Approx. A1-2 (CEFR)
Pre-Intermediate Level	For students with an upper elementary-level background in Japanese language. Approx. A2 (CEFR)
Intermediate Level	For students with a pre-intermediate-level background in Japanese language. Approx. B1 (CEFR)

Course Content of the Skill-Based Courses

Japanese Reading	Students study Japanese expressions and compositional structure through intensive reading and writing. In addition to activities which build on previously learned expressions, students move progressively through more challenging materials.
Japanese Listening	While intensively working to improve listening comprehension, students study oral expressions used in various daily activities.
Japanese Writing	Students develop effective and comprehensive writing skills by practicing sentences that use words and expressions with kanji.
Japanese Speaking	Students gather information on topics of their choice through library research and field surveys. They then analyze the information and present it as written essays and oral presentations. While students may need to learn a limited number of new expressions, they primarily focus on creatively using expressions they have already studied.

Japanese Culture and Society

Students can study various aspects of Japanese life and society through Japanese culture in English. This course is recommended for Beginner Level and Elementary Level students.

Introduction to Japanology

Students can study the Japanese language and Japan’s culture and society in Japanese. This course is recommended for Pre-Intermediate Level and Intermediate Level students.

Extracurricular Japanese Courses

Toyo University offers several extracurricular courses suited to various levels and goals. All courses are free for international students of Toyo University.

Academic Japanese Beginner Courses

Japanese Writing Program

We offer one-to-one lessons that focus on “writing,” from the beginner to the advanced level, following Toyo University’s original curriculum.

Japanese STEP UP Program

We offer about 15 programs for various purposes, including conversation and grammar, from the beginner to the advanced level in small groups of 10 or fewer students.

JLPT Preparation Program

We offer preparation courses for the JLPT at the N1 and N2 levels. Students can study key areas such as language knowledge, reading, listening, grammar, and vocabulary in small group classes. These courses aim to help students strengthen their weak points and improve their test scores effectively.

Business Japanese Courses

BJT Preparation Courses

Practical courses consisting of eight 90-minute sessions aiming to increase BJT test scores.

Business Japanese Special Courses & Advanced Courses

There are 14 special courses and six advanced courses to select from. Students can learn business Japanese and skills from experts in various fields.

Business Japanese Courses (on-demand)

We currently offer three courses, “Introduction to Business Japanese,” “Preparation Course for BJT Business Japanese Proficiency Test,” and “Business Japanese Teaching.” Students are free to create their own course plan and take courses anytime within the period.

Career Support for International Students

Toyo University offers additional programs for international students to prepare for their careers in Japan. Students can take business language courses and job hunting seminars. Internship opportunities in Tokyo and other parts of Japan are also available to gain hands-on experience working in Japan.

Japanese Cultural Events and Interactions with Japanese Students

International students at Toyo University have unlimited opportunities to make friends with local students and experience Japanese culture firsthand.

English Community Zone (ECZ)

ECZ is a lounge-type space on campus where Toyo University students and international students get together to relax, play games, listen to music, and hang out in English. In addition, ECZ hosts evening events every month, such as a Halloween party and Christmas party. ECZ is the perfect place to unwind and make new friends.

Japanese calligraphy experience

Participating in a training session with the University's sumo team

Language Exchange Program (LEP)

All interested study abroad program students are connected through LEP, the Toyo University student volunteers who help the students practice their Japanese and better understand Japanese culture.

Japanese Language Lounge (JLL)

Anyone can join and try using the Japanese they have learned with Japanese students in a relaxed setting. It is open two days every week.

International Students Meeting (ISM)

ISM is an online event where students at partner universities and Toyo University students get together and discuss various topics using Japanese or English. Participants will be divided into small groups and exchange thoughts and ideas.

Clubs

Toyo University strongly believes that student activities contribute to the enrichment of campus life. With 72 sports clubs and 230 sports and cultural groups, you can easily find a group of students who share your interests.

Japanese Cultural Events

Student organizations host a wide range of events on and off campus—such as seasonal activities, sports events, and sports festivals—where Japanese and international students can come together and have fun.

Weekend Homestay

Toyo University offers a homestay program designed to promote meaningful intercultural understanding by allowing international students to experience life in a Japanese household.

Since opportunities to interact closely with local families can be limited during study abroad, this program has become one of our most popular activities. Students enjoy authentic cultural experiences, build warm connections with Japanese hosts, and often see significant improvement in their Japanese language skills through daily communication. The program is held twice a year in the suburbs of Tokyo for two nights and three days. In some cases, partial financial support from the University is available.

Overseas Offices

Toyo University has overseas offices and liaison offices in four locations in three countries. The primary purpose of our overseas offices is to expand and strengthen our international partnerships, through facilitating joint research projects, organizing academic exchanges, arranging visits by professors and students, and coordinating internships. The University continues to strengthen and diversify our global network.

Scholarships for International Students

Toyo SDGs Ambassador Scholarship for International Students

Toyo University offers a full scholarship opportunity to international students who are interested in initiating activities related to the UN's Sustainable Development Goals (SDGs or Global Goals). The University declared the Charter of Conduct for SDGs, which raises awareness toward sustainable development in its community. This Ambassador Program is intended to strengthen its commitment in sustainable development further by offering financial aid and other kinds of support to international students who can act as leaders to achieve the SDGs.

▼ Further Information

https://www.toyo.ac.jp/academics/international-exchange/prospective/full_scholarship/index.html

Eligibility	Undergraduate students
Number of Spots	20 students/year
Financial Support	100% tuition waiver for the first year / 60-100% tuition waiver from the second to fourth year (the percentage is decided based on GPA) / Dormitory fees covered by the University for four years* *To receive the full amount of the waiver, students must also apply for the Tuition Reduction Scholarship.
Other Support	SDGs tutor, on-campus part-time opportunities, and support for learning Japanese
Responsibilities	Create SDGs action plans and implement them (organizing/joining SDGs-related events, study groups, and volunteer activities)

The Top Leading Students Scholarship of Toyo University Graduate Schools

This is a new full scholarship opportunity available to master's students that was launched in AY2024. We provide selected students with financial and student life support.
