(3) Being Eligible for Aid Programs for International Students

Aid programs such as tuition reduction and scholarships available to international students are applicable to those with a student status of residence. While it is possible to enroll in and attend the University with a status of residence other than student that allows for long-term stays in Japan, in such cases, they will not be eligible to apply for the aid programs such as tuition reduction and scholarships. If the student wishes to be eligible for programs for international students, please apply for a change of status of residence.

(4) Points to Note

Regarding the specified procedures for residence status applications, re-applications, appeal for cancellation, etc., the University shall not be responsible for any disadvantages such as missing classes etc.

(5) Others

Information required before entry into the country will be provided on the following website:

https://www.toyo.ac.jp/academics/international-exchange/enroll/prearrival/

II. For Those who Possess a Valid Status of Residence (Current Residents in Japan)

Those who are already in possession of the "student" status of residence should apply for renewal of their current status of residence as is required. Check the guide for the admissions procedure for more information. However, if any of the following applies to the applicant, he/she may be required to leave Japan once and follow the same procedures outlined in III. For Applicants Without a Valid Residence Status. In such cases, the University will not apply for renewal of his/her status of residence as student.

- 1) The applicant obtained student status of residence at the educational institution he/she attended prior to enrolling at the University, and there is a gap of more than 3 months between the completion (graduation) of the course of study at the previous educational institution and his/her enrollment at the university.
- 2) The applicant obtained student status of residence at the educational institution that he/she attended prior to enrolling at the University, and the University has deemed it inappropriate to apply for permission to extend his/her period of stay because he/she left (or plans to leave) the previous (or currently enrolled) educational institution without completing (graduating from) the course of study there, regardless of the timing.
- *It should be noted that, depending on the circumstances, their Certificate of Eligibility for Resident Status may not be issued in time for enrollment on September 16, 2025. However, the University will not be held responsible for any disadvantages resulting from missed classes, etc., that result in such cases.
- *Applicants who possess any short-term residence status are not allowed to enroll at the University. It is mandatory to acquire the student status of residence before matriculation, so please follow the procedures outlined in III. For Applicants Without a Valid Residence Status.

(1) Revocation of Re-Enrollment Permission

If as of September 16, 2025, the applicant has not acquired a student or medium- to long-term status of residence (excluding those under the application for extension of stay or change of status of residence), his/her re-admission to the University will be revoked effective on September 15, 2025. In this case, upon completion of the required procedures, the paid fees excluding the admission fee will be refunded. However, the period for the application for extension of stay or change of status of residence includes the time for reapplication or appeal for cancellation.

(2) Expulsion

If the applicant is under the application for extension of stay or change of status of residence as of September 16, 2025, and the permission for extension of stay or change of status of residence cannot be confirmed by November 15, 2025, he/she will be expelled from the University as of the date specified by the University. Therefore, please proceed with the necessary procedures promptly. In case of expulsion, upon completion of the required procedures, the paid fees excluding the admission fee will be refunded. Please note that the period for the application for extension of stay change of status of residence includes the time for reasolication or appeal for cancellation.

(3) Renewal of Residence Period and Change of Residence Status

If it is necessary to renew the residence period for student status of residence before enrollment or if the applicant wishes to change the residence status from a medium- to long-term status of residence to student, the University will apply for online proxy application to the Immigration Services Agency of Japan.
