Status of Residence

(Nationals of Countries other than Japan)

International applicants who are accepted for admission to Toyo University are eligible to obtain the "student" status of residence. However, those who have not obtained the "student" status or any other status to reside in Japan for a mid to long term as of April 1, 2025, will not be accepted to enroll the University. International applicants who are admitted to Toyo University for evening courses are not eligible for the "student" residence status.

Successful international applicants are advised to check this website for details prior to applying.

<https://www.toyo.ac.jp/academics/international-exchange/enroll/prearrival/#anc06>

For those with a valid residence status (Successful applicants currently residing in Japan)

(1) In case that the applicant has a valid status of residence

Those who are already in possession of the "student" status of residence should apply for renewal of their current status of residence as is required. Check the "Admissions Guide" for more information.

However, if any of the following applies to the applicant, he/she may be required to leave Japan once and follow the same procedures outlined in "For applicants without of a valid residence status." In such cases, the University will not apply for renewal of his/her status of residence as "student."

- ① The applicant obtained "student" status at the educational institution he/she attended prior to enrolling at the University, and there is a gap of more than 3 months between the completion of the course of study (graduation) at the previous educational institution and his/her enrollment at the University.
- ② The applicant obtained "student" status at the educational institution he/she attended prior to enrolling at the University, and the University has deemed it inappropriate to apply for permission to extend his/her period of stay because, he/she left (or plans to leave) the previous (or currently enrolled) educational institution without completing (graduating from) the course of study there, regardless of the timing.

*Applicants should note that, depending on the circumstances, their "Certificate of Eligibility for Resident Status" may not be issued in time for enrollment on April 1, 2025. However, the University will not be held responsible for any disadvantages resulting from missed classes, etc., that result in such cases.

(2) In case that the applicant has a short-term status of residence

Applicants who possess a "short-term" residence status are not allowed to enroll at Toyo University. It is mandatory to acquire the "student" status of residence before matriculation, so please follow the procedures outlined in "For applicants without a valid residence status".

(3) In case that the applicant has a valid mid- or long-term resident status in Japan other than "student" or "short-term"

As long as the applicant has a valid mid- or long-term status of residence such as "Special Resident," "Dependent," etc., as of April 1st, 2025, he/she will be eligible to enroll in the University. However, for those wishing to become eligible for Toyo University's tuition reduction for international students as well as scholarships, services, and benefits that are offered specifically to international students, it is required to acquire the "student" status of residence. Should the student wish to make the change in residence status, please apply with the Immigration Services Agency. More information will be provided in the "Admissions Guide" after the announcement of results.

For applicants without a valid residence status (applicants currently not residing in Japan)

It is mandatory to acquire a "Certificate of Eligibility for Resident Status" (COE) to enter Japan and enroll Toyo University. The application for COE has to be done through the Immigration Services Agency of Japan by the applicant him/herself, family member of the applicant, or the financial sponsor (the individual paying the University's tuition fees). In the case that both the individual or the individual's representative (family member or financial sponsor) does not reside in Japan, the applicant can request Toyo University's appointed administrative scrivener to file a proxy application for issuance of "Certificate of Eligibility for Resident Status" with the Immigration Services Agency on their behalf. More information will be provided in the "Admissions Guide" after the announcement of results. It should be noted that it will take a month or two until the COE is issued. Once the COE is issued, the applicant will be asked to prepare other necessary documents and receive a "Student" visa from a diplomatic office of Japan in his/her home country or country of residence before coming to Japan.

- * Toyo University only provides proxy applications for the "student" status of residence.
- * A "Certificate of Ability to Pay School Expenses" is required for this proxy application. Arrangements should be made in advance, as issuance of this certificate may take time.
- * Those who would like Toyo University to apply for a "Certificate of Eligibility for Resident Status" on their behalf must report accurately how many times they have applied for the COE and their applications have been refused. If their application for COE is refused because of reporting false information, Toyo University will not accept further requests for re-application.
- * The Immigration Services Agency will handle screening of students' Certificate of Eligibility for Resident and the Status and the diplomatic office of Japan in students' country will handle screening of the visa. Toyo University will assume no responsibility if any of these documents is not granted.

In the case of newly enrolled students, if the student pays the full tuition and then receives the tuition reduction after admission, he or she will receive a refund for the amount of the reduction. In the case of students in their second or subsequent year who met academic standards and are recognized as eligible for the tuition reduction, students will be requested to pay a reduced tuition amount that corresponds to the academic standards for that student. For details on eligibility to receive the tuition reduction, see "Support Schemes for International Students."
- Students are permitted to choose between paying the entire amount when completing the admission procedure or paying the tuition, Facility fee, lab fee, and equipment fee in two installments per year.
- Students enrolling in the Faculty of Letters' Department of History must pay an additional academic fee of 6,000 yen. (Furthermore, all transfer *hennyugaku* and *tennyugaku* students joining these programs will be required to pay the fee according to the year that they join the program. *The fee is 3,000 yen for third-year transfer [*hennyugaku* and *tennyugaku*] students and 4,500 yen for second-year transfer [*tennyugaku*] students for the Faculty of Letters' Department of History.)
- Students enrolling in the Faculty of Sociology's Department of Global Diversity Studies will participate in a one-week "global diversity exercise" either in Japan or abroad during their first year. They must therefore make a separate payment to cover associated expenses (e.g., for transport, accommodations, educational materials, meals, etc.) amounting to approximately 80,000 yen for an exercise in Japan and approximately 200,000 to 300,000 yen for an exercise abroad (or approximately 350,000 to 400,000 yen for students desiring a long-term program).
- Some courses may charge an additional payment of activity fees
- The admission fee is money paid as "the price of obtaining a position that will allow enrollment to the faculty, department, and course of Toyo University where the applicant is allowed to enter." It is therefore non-refundable even if the applicant declines to enroll in the university. Submitted documents will likewise not be returned.
- Tuition and fees may change for students who exceed the designated length of the course of study.
- Please refer to the Toyo University website for the latest fee information.
- The figures listed above are tentative and subject to change.

*Toyo University may collect other expenses on behalf of various organizations based on their requests

Withdrawal from Admission and Refund of Payments following the Admission Procedure

Students are not allowed to withdraw from enrollment in principle. However, in the event that it becomes difficult for a student to attend the university due to illness, disease, economic difficulty, or other such circumstances, if an applicant applies with the expected hopes of fulfilling admission requirements but fails to satisfy them by the time enrollment officially begins, or if it is discovered that an applicant has falsified any part of their application including certifications for application eligibility or documents for application examination, Toyo University will allow the student to withdraw from enrollment and refund his/her payments (excluding the admission fee) provided that the student submits a request through the procedure prescribed by Toyo University. Procedure details can be found in the "Admissions Procedure Guide".

-What are the SDGs (Sustainable Development Goals)?

The SDGs are goals selected at the UN Global Summit in September of 2015 with the end goal of creating a better international standard for the world. They were first featured in the "2030 Agenda for sustainable development", and it is hoped that the international community will achieve these goals by 2030. There are 17 goals in total with 169 targets and a promise to leave no one behind on Earth.

Support Schemes for International Students

1. Tuition Reduction Scholarship

Toyo University assists international students through its Tuition Reduction Scholarship.

The Tuition Reduction Scholarship for Privately Financed International Students is designed to encourage learning by international students who are enrolled in Toyo University and its graduate schools and reduce their financial burden associated with everyday living. Applications for the scheme are accepted after admission. The main application requirements include having the status of residence "Student," having difficulty with study for economic reasons, and satisfying prescribed academic standards (in the case of the first year, to complete course registration).

Details can be obtained in the section titled "Scholarships for International Students" on the Toyo University website by accessing the following link. (The information provided pertains to the 2024 academic year.)

<https://www.toyo.ac.jp/academics/student-support/award/>

2. Toyo University International Student Insurance

This scheme compensates the cost of having family members come to Japan when an international student falls ill or is involved in an accident and must be hospitalized or receive similar treatment.

Eligibility requirements	1) The student is an international student whose status of residence is "Student" (regardless of whether his/her expenses are government or privately financed or if the illness/accident occurs during a period of absence from school). 2) The student has completed international student registration procedures within the period designated by the university. 3) The student is enrolled in a health insurance scheme (such as national health insurance).
Insurance	• Death Insurance (maximum of 1,000,000 yen) • Residual Disability Insurance (between 4% and 100% of the Death Insurance according to the degree of residual disability) • Rescue Expense Insurance (maximum of 3,000,000 yen)
Premium	Free (Insurance premiums are borne by the university.)
Period	The period of enrollment (Also applicable to periods of absence from school.)

3. Guarantor Support for Apartment Hunting

People wanting to rent a room in Japan must have a "guarantor." The guarantor's role is to pay the rent on the renter's behalf when the renter does not do so. Japanese students typically ask their relative or close associate to be their guarantor. However, because this is usually not an option for international students, they must use a corporate guarantee service.

Toyo University concluded a memorandum with Global Trust Networks Co., Ltd. This allows international students of Toyo University to receive a 20% discount off Global Trust Networks' guarantee fee when using its guarantor service. Global Trust Networks also provides apartment-hunting support in many languages (including Japanese, English, Chinese, Korean, Vietnamese, and Nepali) and has numerous apartments and other dwellings for international students listed.

*The discount may not be applicable for some properties. Inquiries for details should be made directly to Global Trust Networks.

These syllabi should be arranged in advance.

In addition to the application documents, transfer students will be asked to submit a certificate of graduation (certificate of withdrawal) and academic transcript (issued on or after January 2025) together with the syllabi. (In principle, those documents should be written in English.)

- (2) When it is deemed that subject credits earned prior to transfer (*hennyugaku* or *tennyugaku*) to Toyo University match with the subject name, lecture content, number of credits, and other items in the Faculty of Information Sciences and Arts' Curriculum Table, Toyo University will recognize credits individually for each subject by matching the studied subjects with the subjects of the faculty.
However, when subjects cannot be recognized individually as subjects of the Faculty of Information Sciences and Arts, the university will recognize the number of credits as a lump sum for each subject field.
- (3) After transferring (*hennyugaku* or *tennyugaku*), students will earn the credits still needed to satisfy conditions of starting graduation research as well as graduation requirements in accordance with the number of recognized credits and course instruction in the department.
